Eco tip:

Earthworms: the hidden heroes of healthy soil! You might not see them often, but they play a huge role in keeping our soil healthy and our plants growing.

- 🪴 They break down organic matter into nutrient-rich soil
 - They improve drainage by creating tunnels underground
 - 🌱 They help plants grow stronger by releasing nutrients
 - 🐾 They provide food for birds, hedgehogs and other wildlife
- Without earthworms, our soil would be less fertile and much harder for plants to grow in.

A PRAYER FOR GOD TO GUIDE US

Loving God,

Fill us with your grace, so we can:
know your way and walk in it,
hear your word and respond to it,
see injustice and address it,
be attentive to pain and alleviate it,
seek transformation and bring it,
through your empowering Spirit. Amen.

Chair, Wales Synod Cymru
